[Jailbreaking with Redsn0w for the Original, 3G, & 3GS iPhones](#)

Update 3: Please Please Please listen to Episode 87 before emailing me questions. Any questions emailed that I covered the answer on 87 will be read on a future episode where I will then make fun of you and call you all kinds of bad names - plus I will find those embarrassing pictures of you from spring break and put them in as the album art. But seriously - please listen to Episode 87 before emailing me.

Update 2: 7/9/09 - Added link to firmware for iPod Touch owners
