The Y]K[ Fest Committee Welcomes you to:

Proudly Sponsored by
InTrec Software

Your KansasFest Committee:
Cindy Adams, Jerry Cline, Steve Gozdiewski,
Max Jones, Stan Marks and Allen Moore

Special thanks to the publishers, writers, and all those who have worked so hard to make this year's KansasFest a reality, and to Syndicom for the use of their Conferences on Delphi.
Welcome to Y][KFEST, once again being held at Avila College in Kansas City, Missouri! We hope you enjoy the conference, special events, and meet new friends at this once-per-year computer expo specifically for Apple computers, especially the Apple II line.

Room Assignments:
Everyone has been assigned a roommate based upon your stated preferences at registration. If there is a problem with your room, please contact a KansasFest staff member at the registration desk. Please note that anyone 18 or younger must be accompanied by an adult!

Meals:
Meals will be provided by Avila College in the cafeteria at the assigned times listed in the schedule. If you have paid for a dorm room, all meals are included with your KansasFest registration.

If you are not staying at Avila College, meals are still available. To order a meal, please contact an Avila employee in the cafeteria. KansasFest is not handling meals that have not been pre-paid as part of a dorm registration.

http://www.kfest.org:
The KFest Web Site is hosted by Eric "Shepy" Shepherd and maintained by David Kerwood. The email list is the "domain" of Devin Reade.

They all deserve our appreciation for providing year round communication for anything/everything related to KFest.

HackFest:
Once again KFest features this special programming contest. Whether you attend as a participant or an interested observer you're sure to enjoy this unique event!

While you're there, don't forget to thank Eric Shepherd for all the work he did to make HackFest '00 possible!

Special thanks to Max Jones (Juiced.GS), InTrec Software, Geoff Weiss, Tony Ward, and two anonymous donors for their generous prize contributions.

The Apple II Spirit:
This is always a very special part of KansasFest and everyone attending keeps this spirit alive by adding something to our celebration of the computer and the attitude it generated. A special thanks to all for your contributions this year and every year!

Rules of Conduct:
Because of some minor problems with previous KansasFests, Avila College would like you to be aware of the following rules to be followed while attending Y][KFEST:

- No fireworks or explosives of any kind, including dry-ice bombs will be allowed - NO EXCEPTION. Anyone using any sort of firework or explosive will be expelled and their registration will be forfeited.

- KansasFest attendees are not welcome on dorm floors, rooms, or other areas that are being used by other conferences. Please keep to the areas assigned to KansasFest and please don't wander about Avila without reason.

- Because of state fire regulations (not to mention common sense and respect for other people), there will be no commandeering of elevators for any reason. All elevators are to remain operating at all times! This is also grounds for expulsion from KansasFest.

- Please note that Avila is a "dry" (alcohol-free) campus.

- NO RUNNING PHONE LINES!!! This is very important! You may use the phone jacks in the dorm rooms, or in the Telecom Room if it is not currently being used for a conference. However, you may NOT run your own phone lines for any reason without expressed permission from a KansasFest staff member. Avila is VERY picky about this because people have taken advantage of their good nature in the past.

- There will be no smoking in any building at Avila College except for dorm rooms that have been designated as smoking rooms.

- There should be no excessive noise after 10PM. Remember that other conferences with members who may keep regular hours will be at Avila at the same time as KansasFest. Since most of us are night owls, we will have to keep things down after normal sleeping hours.

- Finally, and this is worth repeating, please respect other conferences that are being held at Avila at the same time as KansasFest! This includes the noise rule and the "Don't bug other conferences" rule above, as well as walking in on their events and accosting their members.

As We Begin
The entire KansasFest staff would like to wish you the VERY best of times at our little get-together. We hope that Y][KFest will leave you with many happy memories and some new friends. And, of course: Apple II Forever!

We hope you enjoy KFest '00. We've tried to make this a very pleasurable experience, whether it's your first 'Fest or one of many. After the "party is over" and you must return home with (we hope) many wonderful memories, please be careful and get home safely! We'd like to see you again next year and share the attitude that IS KansasFest!

The KansasFest '00 Committee
Description of Conferences

Please see the schedule for a complete chronology of events

**Wednesday**

**Keynote Address**

- Ryan Suenaga (All Computers)
The official KFest "kickoff" by one of the celebrities in the Apple Universe. You don't want to miss this!

**Thursday**

**HackFest '00 Begins**

- Eric Shepherd - Sheppyware/Be (Apple II - Programming)
On your mark, get set, program during the extended hours of this year's HackFest. Good luck to all participants!

**Lost Classics**

- Howard Katz (Apple II - Software)
Everything you'd like to know about "The Lost Classics" project straight from the Project Director.

**ProTERM Mac Scripting, etc.**

- Jerry Cline & Dave Miller - InTrec Software (Macintosh - Telecommunications/Programming)
An overview of scripting, programming, and getting a GUI with ProTERM Mac. Have your questions answered by those who know the software better than anyone.

**Desktop Publishing**

- Max Jones - Juiced.GS (Apple IIGS - Software/Techniques)
Explore the many ways you can improve your DTP. Max will offer special techniques he's learned from many years of experience.

**Linux: The Apple II Cable Modem Adapter**

- Ryan Suenaga & Kirk Mitchell (Apple II - Telecommunications)
Cable Modem is now officially available in the middle of nowhere, but it requires an Ethernet connection, something ordinary Apple IIs don't have. Are we left out in the cold? No! The answer is Linux.

**Accelerators**

- Tony Diaz - Alltech Electronics (Apple IIGS - Hardware)
Tony has been to EVERY KFest and certainly deserves the title "Resident KFest Hardware Guru"! You'll probably hear him playing the KFest Anthem with his Dremel sometime during the week.
This year Tony will be attacking IIGS accelerators so stop in for the experience of your life. You'll get to see some excellent work and have questions answered clearly and carefully!

**Informal "Caravan" to Apple II Hardware Heaven**

- Sean Fahey (Apple II - Your DreamCome True?)
We'll begin this special trip at the Carondelet Hall parking lot. Maps will be distributed to the drivers as we make sure everyone has a ride to this extraordinary event!

**Friday**

**Apple Presents...**

- Camden Miller - Apple KC (Macintosh)
There are a lot of exciting developments from the innovators at Apple. Come and see what's in store for the Apple faithful!

**New Stuff**

- Eric Shepherd - Sheppyware/Be (Apple Software)
No idea what's in store for us when we attend this session, but "Sheppy" is one of the more prolific software developers as well as a perfectionist in his work. His "beta testing" is among the best we've ever seen. Whatever he has planned for this presentation will certainly be worth your time!

**ProTERM Mac - Tips & Tricks**

- Jerry Cline & Dave Miller - InTrec Software (Macintosh - Telecommunications)
Using ProTERM Mac, general overall view, assistance and question/answer session by the experts!

**Bertie and Ernie: Premiere Apple IIGS Emulation**

- Eric Shepherd, Ryan Suenaga, et.al. (Computer Emulations)
Learn how you can enjoy a high-speed GS using current computers. There should be a surprise or two for you if you attend;

**Saturday**

**BeOS, BeIA, and Clipper**

- Eric Shepherd - Sheppyware/Be (Macintosh - Discussion)
See the latest BeOS in action and find out why it might have a place in your future.

**Spectrum Scripting 2000**

- Geoff Weiss - (Apple IIGS - Telecommunications)
With the release of Spectrum 2.3 last year, the IIGS has reached a new height in the potential of new software. This year, we saw the release of an email client and the ability to create PDF files. But, the year isn't over yet...

**HackFest '00 Ends**

- Eric Shepherd - Sheppyware/Be (Apple II - Programming)
Hope everyone did well and enjoyed the competition! The prizes will be awarded later today after the judging is complete.

**Swap Meet and Vendor's Fair**

The Swap Meet and Vendor's Fair is an opportunity for you to buy, sell, or trade extra computer equipment, software, or books that you have or want, and for vendors to display their products. Some of the vendors will be offering special KFest discounts during the Meet so do check in!
