Jailbreaking with Redsn0w for the Original, 3G, & 3GS iPhones

Update 3: Please listen to Episode 87 before emailing me questions. Any questions emailed that I covered the answer on 87 will be read on a future episode where I will then make fun of you and call you all kinds of bad names - plus I will find those embarasing pictures of you from spring break and put them in as the album art. But seriously - please listen to Episode 87 before emailing me.

Update 2: 7/9/09 - Added link to firmware for iPod Touch owners
Please select the device that you would like to modify. This can be either an iPhone an iPod Touch or the new iPhone 3G.
