Welcome to KFEST '01, once again being held at Avila College in Kansas City, Missouri! We hope you enjoy the conference, special events, and meet new friends at this once-per-year computer expo specifically for Apple computers, especially the Apple II line.

Room Assignments:
Everyone has been assigned a roommate based upon your stated preferences at registration. If there is a problem with your room, please contact a KansasFest staff member at the registration desk. Please note that anyone 18 or younger must be accompanied by an adult!

Meals:
Meals will be provided by Avila College in the cafeteria at the assigned times listed in the schedule. If you have paid for a dorm room, all meals are included with your KansasFest registration.

If you are not staying at Avila College, meals are still available. To order a meal, please contact an Avila employee in the cafeteria. KansasFest is not handling meals that have not been pre-paid as part of a dorm registration.

http://www.kfest.org:
The KFest Web Site is hosted by Eric "Sheppy" Shepherd and maintained by David Kerwood. The email list is the "domain" of Devin Reade.

They all deserve our appreciation for providing year round communication for anything/everything related to KFest.

HackFest:
Once again KFest features this special programming contest. Whether you attend as a participant or an interested observer you're sure to enjoy this unique event!

While you're there, don't forget to thank Eric Shepherd for all the work he did to make HackFest '01 possible!

Special thanks to Max Jones (Juiced.GS), InTrec Software, Geoff Weiss, Tony Ward, and two anonymous donors for their generous prize contributions.

The Apple II Spirit:
This is always a very special part of KansasFest and everyone attending keeps this spirit alive by adding something to our celebration of the computer and the attitude it generated. A special thanks to all for your contributions this year and every year!

Rules of Conduct:
Because of some minor problems with previous KansasFests, Avila College would like you to be aware of the following rules to be followed while attending KFEST '01.

- No fireworks or explosives of any kind, including dry-ice bombs will be allowed - NO EXCEPTION. Anyone using any sort of fireworks or explosive will be expelled and their registration will be forfeited.

- KansasFest attendees are not welcome on dorm floors, rooms, or other areas that are being used by other conferences. Please keep to the areas assigned to KansasFest and please don't wander about Avila without reason.

- Because of state fire regulations (not to mention common sense and respect for other people), there will be no commandeering of elevators for any reason. All elevators are to remain operating at all times! This is also grounds for expulsion from KansasFest.

- Please note that Avila is a "dry" (alcohol-free) campus.

- NO RUNNING ETHERNET CABLES!!! This is very important! There are ethernet jacks in each room. Several KFest attendees have made sure AirPort access is available as well. If you need to use a modem there is also a phone jack in your room and there should be no need to run any cables.

- There will be no smoking in any building at Avila College except for dorm rooms that have been designated as smoking rooms.

- There should be no excessive noise after 10PM. Remember that other conferences with members who may keep regular hours will be at Avila at the same time as KansasFest. Since most of us are night owls, we will have to keep things down after normal sleeping hours.

- Finally, and this is worth repeating, please respect other conferences that are being held at Avila at the same time as KansasFest! This includes the noise rule and the "Don't bug other conferences" rule above, as well as walking in on their events and accosting their members.

As We Begin
The entire KansasFest staff would like to wish you the VERY best of times at our little get-together. We hope that KFest '01 will leave you with many happy memories and some new friends. And, of course: APPLE II FOREVER!
*Some maps are not to scale. ;-)

### Final Words:
KansasFest is possible because of your efforts and contributions. You make it happen, you make it worthwhile, and you make it the special event it is. Our sincere thanks and appreciation to you, the heart and soul of KFest!

We hope you enjoy KFest ’01. We’ve tried to make this a very pleasurable experience, whether it’s your first Fest or one of many. After the "party is over" and you must return home with (we hope) many wonderful memories, please be careful and get home safely! We’d like to see you again next year and share the attitude that IS KansasFest!

---

*The KansasFest '01 Committee*
**Wednesday**

**Keynote Address**
- Eric Shepherd - Syndicomm
  The official KFest "kickoff" by one of the celebrities in the Apple Universe. You don't want to miss this!

**GShisen Contest**
- Max Jones - Juiced GS
  Once again. Can you beat your best? Can you beat *the* best?

**Thursday**

**HackFest '01 Begins**
- Eric Shepherd - Syndicomm
  On your mark, get set, program during the extended hours of this year's HackFest. Good luck to all participants!

**Lost Classics.**
- Howard Katz (Apple II - Software)
  The Lost Classics Project has as it's goal the re-classification of commercial Apple II software as freeware, for lawful public sharing. This Kfest session, as a continuation to last year's, will focus on specific titles to be targeted for re-classification, as well as recruiting volunteers for these efforts.

**Sir LANce-A-Lot.**
- Geoff Weiss will show getting the most out of your LANceGS card.

**Four ways to route the 'Net to your Apple Ilgs**
- Ryan Suenaga
  In more ways than one! Get wired with your Apple Ilgs!

**TransWarpin' Across the Universe**
- Tony Diaz (Apple IIGS - Hardware)
  We will convert an 8K Transwarp GS Cache card to a 32K cache card right before your eyes. This somewhat fast paced session will be easy to follow though. For a printed version be sure to see Max Jones and acquire the latest Juiced.GS issue as well as your own subscription should you not have that already!

**2001: A Spectrum Odyssey**
- Geoff Weiss
  Over the last year, we saw SAFE, an FTP client, released as well as an OLR for A2Central.com. SIS became available for retail again and had its web site given a new look. There was even an "MP3 Player" Demo. A "first look" will show what else is coming down the pipe.

**Informal “Caravan” to Apple II Hardware Heaven**
- Sean Fahey (Apple II - Your Dream Come True?)
  We'll begin this special trip at the Carondelet Hall parking lot. Maps will be distributed to the drivers as we make sure everyone has a ride to this extraordinary event!

**Friday**

**Syndicomm Online Update**
- Syndicomm owner and operator Eric Shepherd and Syndicomm lead software engineer David Miller will talk about the Syndicomm Online service, including its current features, new features, and planned features. A demo of the service as well as new features will be presented, and the session will include a questions and answers section.

**20,000 Prototypes Under the Bridge**
- A tour of Apple2.org and a close look at prototype computers and comparison to the real thing. Sure to be a great peek back in to the history of Apple II hardware and some things you may not have ever seen.

**You can't do what with an Apple II? Wanna bet?**
- We'll talk about hardware and software issues which need to be addressed in keeping one's Apple Ilgs a viable part of educational research and productivity in a university setting. We'll describe ways in which an Apple Ilgs was used to create and test the Final Project (online lessons) for Master's degree in Curriculum and Instruction. We'll share tips on how to use one's Apple Ilgs computer to communicate across three platforms (ProDOS, Mac and Win) and the internet. Bring your success stories and questions to this session. A nifty door prize will be offered to one lucky attendee.

**The Dog Clinic - Bernie visits the Vet.**
- Ryan Suenaga
  Get the most out of Bernie with this tune up session.

**Saturday**

**Syndicomm: Not Just An Online Service Anymore**
- Syndicomm owner Eric Shepherd will discuss additional Syndicomm efforts to provide a boost to the Apple II community.

**Ken Gagne ... will demo two new CDs and an Apple Ilgs program**

**Swap Meet and Vendor's Fair**
- The Swap Meet and Vendor's Fair is an opportunity for you to buy, sell, or trade extra computer equipment, software, or books that you have or want, and for vendors to display their products. Some of the vendors will be offering special KFest discounts during the Meet so do check in!
